TO: PENNCREST School Community
FROM: Central Office
DATE: June 15, 2020
RE: *Summer Building Use Health & Safety Plan*

The following plan is specifically designed for July 6, 2020 through September 1, 2020 use of facilities by school affiliated organizations for the direct benefit of PENNCREST Students. This plan aligns with the Governor's [Guidance for All Sports Permitted to Operate During the COVID-19 Disaster Emergency to Ensure the Safety and Health of Employees, Athletes and the Public](#). No other group, organization or individual is permitted to use PENNCREST facilities until further notice. The PDE required Health and Safety Plan as outlined in Pennsylvania's [Phased Re-Opening Guidance](#) is in development and will be approved by the Board of School Directors on August 13, 2020 for implementation on September 2, 2020.

Participation

All participants (student, parent, volunteer, employee, coach, etc.) understand that attendance is not mandatory until the official start of the 20-21 season. All participants are required to read and follow this Summer Building Use Health and Safety Plan. All participants and his/her parent/guardian understand the COVID-19 health risks of participating.

Protocols for protecting participants

Facility use is only permitted when Crawford County is in the "Green Phase". Campus population cannot exceed 250 individuals at any time. Participants with temperatures higher than 100.4 degrees are not permitted on campus. Participants who are sick or symptomatic are not permitted on campus. COVID-19 symptoms include: Fever, chills, cough, shortness of breath or difficulty breathing, muscle or body aches, headache, loss of taste, loss of smell, sore throat, congestion, runny nose, nausea, vomiting or diarrhea. Informational posters and communications will be placed inside and outside of school facilities and include guidance about social distancing, face coverings, hand washing, COVID-19 symptoms, personal hygiene and protective measures.

Protocols for protecting high risk participants

The CDC defines people at [higher risk](#) for severe illness as 65 or older, in a nursing home, chronic lung disease, moderate to severe asthma, serious heart conditions, immunocompromised, severe obesity, diabetes, chronic kidney disease and liver disease. The CDC recommends individuals at higher risk should stay home, wash hands often, avoid close contact, clean and disinfect frequently touched surfaces, cover your mouth and nose, and cover coughs and sneezes.

Cleaning, sanitizing, disinfecting and ventilating

The primary organization representative (ie. coach) is responsible to disinfect high-touch areas before and after facility use. The District will provide the disinfectant and applicator. The District will continue to clean all facilities on a regular basis. Facility ventilation will increase by adjusting univentilator settings, changing filters more frequently, and opening doors and windows.

Face Coverings/Masks

Face coverings/masks are encouraged when social distancing is not possible, entrance to and exit from the facility, and anytime it is not activity prohibitive. The District is not mandating face coverings/masks when Crawford County is in the "Green Phase".

Social Distancing

Social distancing is required when it is not activity prohibitive.

Personal Hygiene

The district requires all participants to practice good personal hygiene habits and follow the CDC guidelines to [protect yourself](#) from COVID-19. At a minimum, individuals should properly wash hands, avoid touching their face, avoid touching high touch items, and practice social distancing.

Personal Protective Equipment (PPE)

PPE is not provided by the District. However, individuals may request PPE through the District Pandemic Coordinator. All requests will be considered based on merit, current health data and scientific research.

Participant Training

All participants are required to read and follow this Summer Building Use Health and Safety Plan. The individuals responsible for directing the activity will provide all training related to the implementation of this plan including disinfecting high touch areas and equipment, social distancing protocols and personal hygiene.

Transportation & Travel

At this time, the District is not providing transportation and will not approve travel outside the district boundaries.

Food, Meals & Concessions

At this time, no meals or food shall be served, sold, purchased or distributed on district property. Participants should bring their own beverages and containers to and from school facilities. The representative organizing the event may purchase single-use beverages for participants (cases of water, Gatorade, Propel, etc...).

Locker rooms or similar & restrooms

Participants are not permitted to store personal items on campus. This includes instruments, uniforms, equipment or similar, and includes individual purchased items or school issued items. Participants are not permitted to use locker rooms or similar for changing clothes, storing items or showering. Restrooms are available for use and are cleaned and disinfected routinely.

*Subject to change as mandated by regulatory or governmental agency directive.
